TUFF-WRITER
FRONTLINE SERIES #4980

PHILOSOPHY

There are a lot of other companies out there right now which make pens as accessories. Nice little anodized trinkets to complement their product line or extend their market reach in addition to their core competency. At Tuff-Writer, we just make one thing... pens. In fact we make the best tactical pens on the market. This is our core competency.

Here at Tuff-Writer we understand that people often depend on their tools for their lives. That's precisely why we make the world's toughest pen. Before you buy a Tuff-Writer we spend literally months testing it, carrying it and generally abusing it.

That's why through freezing cold, intense heat and the harshest conditions you're likely to find yourself in, our products will prevail so that you can prevail.

***Even cooler than
sharks with lasers!***

FRONTLINE SERIES

Length: 6.5 inches/5.75 inches

WARRANTY

We make the world's toughest pens. To stand behind our promise, if you have any issues with your Tuff-Writer tactical pen, send it back and we will do our best to make it right.

Tuff-Writer pens are guaranteed against defects in materials and workmanship for the duration of their useful life. Short of intentional destruction, we will warranty the Tuff-Writer against failure for the life of the product.
